STANDARD AND CUSTOM SOLUTIONS AVAILABLE.

OFFICE HYGIENE BARRIERS SOLUTION KIT

In OSHA's newly published, "Guidance on Preparing Workplaces for COVID-19", the agency specifically suggests, "installing physical barriers, such as clear plastic sneeze guards," as a defense for the spread of COVID-19. We have developed two systems that allow you to maintain your current office layout while keeping people safer. Utilizing minimal framework and clear acrylic, these solutions preserve that feeling of openness while giving extra protection.
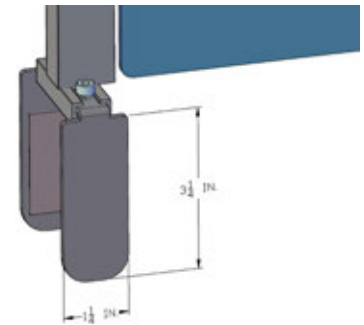

TWO STYLES TO CHOOSE FROM

FRAMED

FRAMELESS

## TWO CLAMPING SYSTEMS TO FIT PRACTICALLY ANY OFFICE SYSTEM

## DESK AND TABLE APPLICATIONS

THE PIRANHA
DOOR OPENER

LESS TOUCH MEANS LESS GERM TRANSMISSION.
ELIMINATE HIGH-TOUCH SURFACE CONTACT ON EVERY DOOR!

- Made from 11 gauge steel to prevent bending
- High back reduces shoe scuff marks on the door
- Rear plate adds extra strength and support
- Strong powder coated finish
- Carriage bolts lock in position for tightening from one side
- Nuts have nylon inserts to resist loosening
